

**PROJECT** | 0712 CENACE. 3RD LONG TERM POWER AUCTION (SLP-1/2017) DOLORES

<b>SECTOR</b> Electricity	<b>SUBSECTOR</b> Wind Power	<b>STAGE ANALYZED</b> Operation	<b>YEAR OF UPDATE</b> 2020
------------------------------	--------------------------------	------------------------------------	-------------------------------

**PROJECT'S SUSTAINABILITY SUMMARY** The Project consists in generating clean energy, through aerogenerators, and considers sustainability practices in environmental and social aspects.

**SUSTAINABILITY ECONOMIC AND FINANCIAL**

**EXAMPLE OF GOOD PRACTICES**  
One of the main functions of the Clearing House is to administer and supervise the fulfillment of the Contract, the risks and the guarantees

Sustainability criteria	ND	T1	T2	T3
Economic and social returns				
Creation of employment opportunities and boost local productivity				
Financial sustainability of assets				
Detailed risk analysis				
Cash flow transparency and creditworthiness				
Operation for an optimal maintenance				
Sustainability incentives				

**SUSTAINABILITY ENVIRONMENTAL AND CLIMATE CHANGE**

**EXAMPLE OF GOOD PRACTICES**  
For the development of the Project, the tonnage of carbon emissions generated by the machinery were estimated, as well as the carbon capture potential of the existing vegetation.

Sustainability criteria	ND	T1	T2	T3
Greenhouse gas emissions				
Climate risks, resilience and disaster risk management				
Impacts on biodiversity and native flora and fauna in the region				
Environmental impact of the Project				
Control and monitoring of pollutants				
Efficient use of resources and recycling strategies				
Efficient use of energy and renewable sources				
Preservation or enhancement of public spaces				

**SUSTAINABILITY SOCIAL**

**EXAMPLE OF GOOD PRACTICES**

Sustainability criteria	ND	T1	T2	T3
Access of communities to basic services				
Integration of communities and other interested parties				
Integration of disable or special needs persons				
Effects of the project in the security of the region and in the health of workers and nearby communities				
Compliance with human and labor rights				
Cultural heritage and indigenous people				
Gender inclusive and women's economic empowerment through the project				
Equal distribution of benefits and compensations to communities				

**SUSTAINABILITY INSTITUTIONAL**

**EXAMPLE OF GOOD PRACTICES**  
Mention is made of Environmental Management Program, which will monitor the strict compliance with current legal provisions on environmental matters during the life of the Project.

Sustainability criteria	ND	T1	T2	T3
Alignment with national and international objectives				
Sectoral and institutional integration				
Corporate sustainability, management and governance				
Transparency and anti-corruption protocols				
Legal requirements and compliance with social and environmental policies				
Development of more sustainable technologies and capacities				
Knowledge transfer in matters related to sustainability				
Information collection and monitoring				

## Comparison of this project vs other projects of the same subsector

(Number of projects included: 9)

**OBJETIVE** This fact sheet identifies the sustainability practices of the project, based on the methodological framework defined by the Inter-American Development Bank (IDB) in the document entitled: "Attributes and Framework for Sustainable Infrastructure", which can be consulted [here](#). The information was obtained from public official sources. The National Bank of Public Works and Services (Banobras) does not endorse or qualify compliance with the criteria shown in this Project Sustainability Report. Mexico Projects Hub is ruled by the terms and conditions referred to in the platform.

### METHODOLOGY

This file has been prepared based on public information available for this project; therefore it should be understood that there may be information that has not been considered in this analysis. The project's sponsor may provide additional information to Mexico Projects Hub to be previously reviewed and, where appropriate, the application of the methodology would be updated.

The methodology considers TIER 1, TIER 2 and TIER 3, based on the existing documentary evidence and the level of detail thereof.

- ◆ **ND:** Indicates the lack of relevant information in that area.
- ◆ **TIER 1:** Is equivalent to the attributes with little information available.
- ◆ **TIER 2:** Represents projects whose documentation includes a detailed analysis of the attribute.
- ◆ **TIER 3:** Identify the attributes that have a strategic plan and a monitoring scheme during the entire life cycle of the project.

DESIGN, CONSTRUCTION, EQUIPMENT, INSTALLATION, OPERATION AND MAINTENANCE OF A WIND POWER PLANT IN THE STATE OF NUEVO LEON.

SECTOR: ELECTRICITY  
SUBSECTOR: WIND POWER

Type of Investment: Brownfield  Green Project

Short Name of the Project: 0712 CENACE. 3rd Long Term Power Auction (SLP-1/2017) Dolores

Contract Currency:	Estimated Investment MXN	Estimated Investment USD	Exchange rate (USD/MXN) used by the Ministry of Finance for the economic plan 2021 \$ 22.1
Mexican Pesos MXN	\$ 6,772,000,000	\$ 306,425,339	

## DESCRIPTION

The project consists of the design, construction, equipment, installation, operation and maintenance of "Dolores" eolic power plant with a total production capacity of 269 MW in the state of Nuevo Leon. The plant has the following features:

Power Zone: National

Export Area: "Noreste"

Price Area: Reynosa

Interconnection Zone: AEROPUERTO-(AER-230)-230

Contract Scope: Design,Construction,Equipment,Installation,Operation,Maintenance

Type of Project: Private Selection Process: Public Auction Term: 15 years

Type of Contract: Assignment Payment Source: Project revenues / Rate

Asset (s): Wind Farms 269 MW,
