

**PROJECT:** 0370 Ciudad Victoria Hospital

**SECTOR:**  
Social Infrastructure

**SUBSECTOR:**  
Health

**STAGE ANALYZED:**  
Operation

**YEAR OF UPDATE:**  
2021

[Guide to read this datasheet](#)

**Project's sustainability summary:** The purpose of the project is the infrastructure, equipment and operating services of the Regional Hospital of High Specialty in Ciudad Victoria, to serve disadvantaged population of the states of Tamaulipas and Veracruz, mainly. Implements measures for the efficient use of water and energy, as well as the use of solar panels for the provision of services.

**ECONOMIC AND FINANCIAL  
SUSTAINABILITY**

EXAMPLE OF GOOD PRACTICES

| Sustainability criteria                                           | NA | T1 | T2 | T3 |
|-------------------------------------------------------------------|----|----|----|----|
| Economic and social returns                                       |    |    |    |    |
| Creation of employment opportunities and boost local productivity |    |    |    |    |
| Financial sustainability of assets                                |    |    |    |    |
| Detailed risk analysis                                            |    |    |    |    |
| Cash flow transparency and creditworthiness                       |    |    |    |    |
| Infrastructure asset maintenance and optimal use                  |    |    |    |    |
| Sustainability incentives                                         |    |    |    |    |

**ENVIRONMENTAL  
SUSTAINABILITY AND  
CLIMATE RESILIENCE**

EXAMPLE OF GOOD PRACTICES  
The project implements the use of efficient energy techniques for the provision of the hospital services.

| Sustainability criteria                                          | NA | T1 | T2 | T3 |
|------------------------------------------------------------------|----|----|----|----|
| Greenhouse gas emissions                                         |    |    |    |    |
| Climate risks, resilience and disaster risk management           |    |    |    |    |
| Impacts on biodiversity and native flora and fauna in the region |    |    |    |    |
| Environmental impact of the Project                              |    |    |    |    |
| Control and monitoring of pollutants                             |    |    |    |    |
| Efficient use of resources and recycling strategies              |    |    |    |    |
| Efficient use of energy and renewable sources                    |    |    |    |    |
| Preservation or enhancement of public spaces                     |    |    |    |    |

**SOCIAL SUSTAINABILITY**

EXAMPLE OF GOOD PRACTICES  
Contributes to the community development, by installing other medical units and promoting medical and nursing schools.

| Sustainability criteria                                                                                  | NA | T1 | T2 | T3 |
|----------------------------------------------------------------------------------------------------------|----|----|----|----|
| Reduction of poverty and access to basic services                                                        |    |    |    |    |
| Integration of communities and other interested parties                                                  |    |    |    |    |
| Integration of people with disabilities or special needs                                                 |    |    |    |    |
| Effects of the project in the security of the region and in the health of workers and nearby communities |    |    |    |    |
| Compliance with human and labor rights                                                                   |    |    |    |    |
| Cultural heritage and indigenous people                                                                  |    |    |    |    |
| Gender inclusion and women's economic empowerment through the project                                    |    |    |    |    |
| Equal distribution of benefits and compensations to communities                                          |    |    |    |    |

**INSTITUTIONAL  
SUSTAINABILITY**

EXAMPLE OF GOOD PRACTICES

| Sustainability criteria                                                  | NA | T1 | T2 | T3 |
|--------------------------------------------------------------------------|----|----|----|----|
| Alignment with national and international strategies                     |    |    |    |    |
| Sectoral and institutional integration                                   |    |    |    |    |
| Corporate sustainability, management and governance                      |    |    |    |    |
| Transparency and anti-corruption protocols                               |    |    |    |    |
| Legal requirements and compliance with social and environmental policies |    |    |    |    |
| Development of more sustainable technologies and capacities              |    |    |    |    |
| Knowledge transfer in matters related to sustainability                  |    |    |    |    |
| Pre-existing conditions and their monitoring                             |    |    |    |    |

Social Infrastructure

**SUBSECTOR:**  
Health

**STAGE ANALYZED:**  
Operation

**YEAR OF UPDATE:**  
2021

This section aims to present the potential alignment of the infrastructure project with the 17 Sustainable Development Goals (SDGs) of the 2030 Agenda. The relevance of this exercise resides in that it provides information to the actors of the infrastructure ecosystem for decision-making in investment that considers and promotes sustainable development.

The tonality of the bars represents the level of detail of the information available from the IDB criteria and its potential alignment for each SDG, based on the scale: N.A., TIER 1, TIER 2 or TIER 3.

Number of times the project information coincides with the alignment of the IDB criteria and the SDGs.

Approximate reference to the number of maximum alignments a project can have between the IDB criteria and the targets of the SDGs.

## PROJECT

DESIGN, CONSTRUCTION, EQUIPMENT, OPERATION AND MAINTENANCE OF THE CIUDAD VICTORIA "BICENTENARIO 2010" REGIONAL SPECIALTY SERVICES HOSPITAL, IN THE STATE OF TAMAULIPAS.

SECTOR: SOCIAL INFRASTRUCTURE  
SUBSECTOR: HEALTH

Type of Investment: Brownfield

Short Name of the Project: 0370 Ciudad Victoria Hospital

Contract Currency:  
Mexican Pesos MXN

Estimated Investment MXN  
\$ 5,474,652,272

Estimated Investment USD  
\$ 283,660,739

Exchange rate (USD/MXN) used by the  
Ministry of Finance for the economic plan  
2026 \$ 19.3

### DESCRIPTION

The project consists of a Regional Specialty Services Hospital "Bicentenario 2010" in Ciudad Victoria. The installed capacity is 94 census beds, 95 non-census beds, 9 operating rooms, 35 Specialty clinics and 1 Telemedicine, 26 Medical Specialties, 14 Surgical Specialties, 8 Surgical Subspecialties and 4 Medical Support Specialty Units (UNEMES).

Contract Scope: Design, Construction, Equipment, Operation, Maintenance

Type of Project: Public / Private

Selection Process: Public Bid

Term: 25 years

Type of Contract: Provision of services

Payment Source: Budgetary

Asset (s): Hospital 189 Beds, 36 Doctor's office, 9 Surgery room
