[Guide to read this datasheet](#) [View](#)

Project's sustainability summary: The project seeks to improve mobility for 220,000 people and create conditions for the Bosque de Chapultepec and the public space that has developed around it to be restored and protected.

ECONOMIC AND FINANCIAL SUSTAINABILITY

EXAMPLE OF GOOD PRACTICES

Sustainability criteria	NA	T1	T2	T3
Economic and social returns				
Creation of employment opportunities and boost local productivity				
Financial sustainability of assets				
Detailed risk analysis				
Cash flow transparency and creditworthiness				
Infrastructure asset maintenance and optimal use				
Sustainability incentives				

ENVIRONMENTAL SUSTAINABILITY AND CLIMATE RESILIENCE

EXAMPLE OF GOOD PRACTICES

Sustainability criteria	NA	T1	T2	T3
Greenhouse gas emissions				
Climate risks, resilience and disaster risk management				
Impacts on biodiversity and native flora and fauna in the region				
Environmental impact of the Project				
Control and monitoring of pollutants				
Efficient use of resources and recycling strategies				
Efficient use of energy and renewable sources				
Preservation and enhancement of public spaces				

SOCIAL SUSTAINABILITY

EXAMPLE OF GOOD PRACTICES

Sustainability criteria	NA	T1	T2	T3
Reduction of poverty and access to basic services				
Integration of communities and other interested parties				
Integration of people with disabilities or special needs				
Effects of the project in the security of the region and in the health of workers and nearby communities				
Compliance with human and labor rights				
Cultural heritage and indigenous people				
Gender inclusion and women's economic empowerment through the project				
Equal distribution of benefits and compensations to communities				

INSTITUTIONAL SUSTAINABILITY

EXAMPLE OF GOOD PRACTICES

Sustainability criteria	NA	T1	T2	T3
Alignment with national and international strategies				
Sectoral and institutional integration				
Corporate sustainability, management and governance				
Transparency and anti-corruption protocols				
Legal requirements and compliance with social and environmental policies				
Development of more sustainable technologies and capacities				
Knowledge transfer in matters related to sustainability				
Pre-existing conditions and their monitoring

PROJECT: 0695 Multi Modal Transfer Station (CETRAM) Chapultepec

SECTOR:
Transport

SUBSECTOR:
Urban Mobility

STAGE ANALYZED:
Execution

YEAR OF UPDATE:
2023

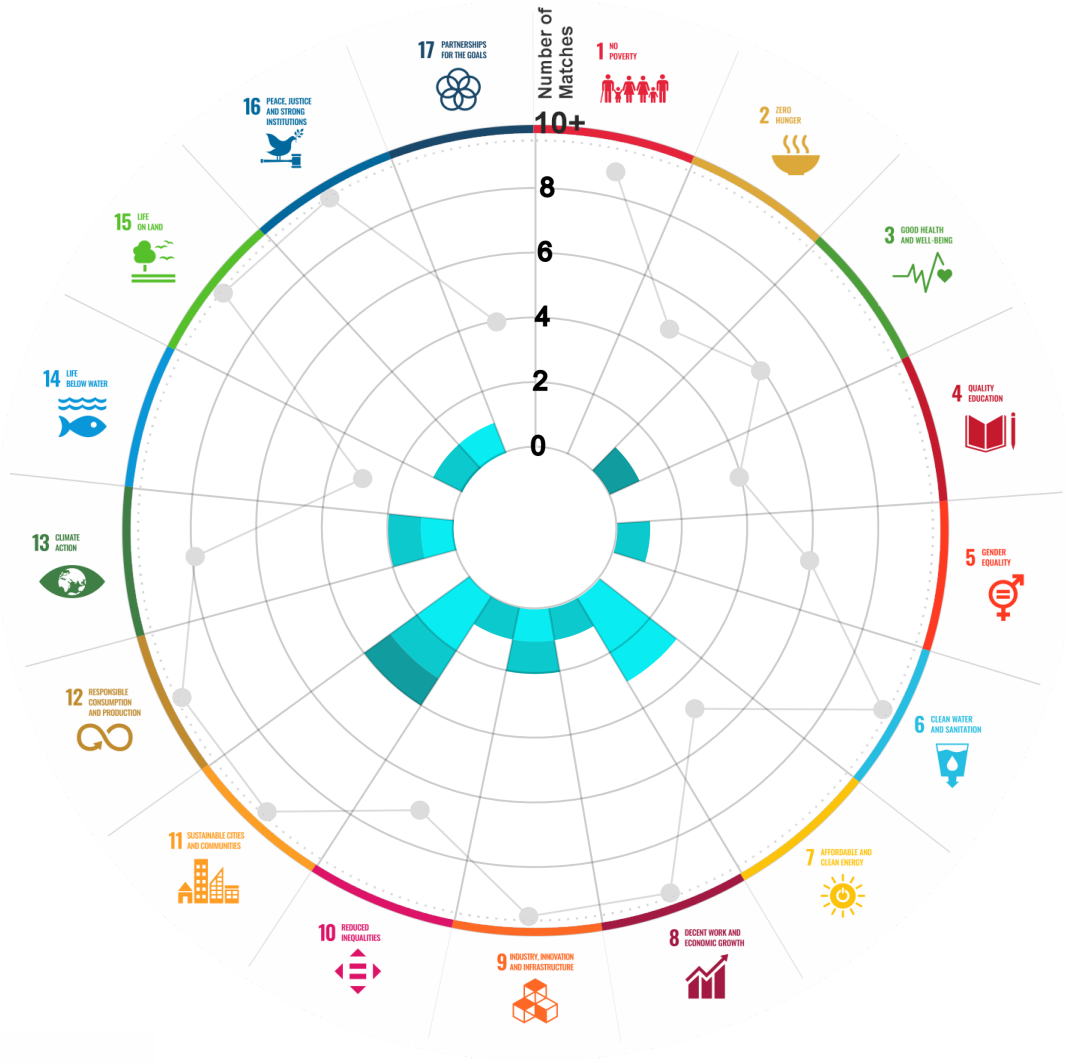

This section aims to present the potential alignment of the infrastructure project with the 17 Sustainable Development Goals (SDGs) of the 2030 Agenda. The relevance of this exercise resides in that it provides information to the actors of the infrastructure ecosystem for decision-making in investment that considers and promotes sustainable development.

Reading guide [View](#)

1. ALIGNMENT BY SUBSECTOR

2. ALIGNMENT BY SDG

3. ALIGNMENT BY CRITERIA AND TARGETS

[View](#)

Explanation of the alignment of the sustainability criteria and the SDGs.

[View](#)

The tonality of the bars represents the level of detail of the information available from the IDB criteria and its potential alignment for each SDG, based on the scale: N.A., TIER 1, TIER 2 or TIER 3.

Number of times the project information coincides with the alignment of the IDB criteria and the SDGs.

Approximate reference to the number of maximum alignments a project can have between the IDB criteria and the targets of the SDGs.

PROJECT

CONSTRUCTION, MODERNIZATION, OPERATION AND MAINTENANCE OF THE TRANSPORT AND MODAL INTERCHANGE TERMINAL (CETRAM) CHAPULTEPEC, IN MEXICO CITY.

SECTOR: TRANSPORT
SUBSECTOR: URBAN MOBILITY

Type of Investment: Greenfield

Short Name of the Project: 0695 Multi Modal Transfer Station (CETRAM) Chapultepec

Contract Currency:
Mexican Pesos MXN

Estimated Investment MXN
\$ 3,649,000,000

Estimated Investment USD
\$ 177,135,922

Exchange rate (USD/MXN) used by the Ministry of Finance for the economic plan 2023 \$ 20.6

DESCRIPTION

Cetram Chapultepec includes the reorganization of the current operations of the public transport route that is located just outside the Chapultepec Metro station, providing an opportunity for growth in demand through the allocation of two areas of Cetram "North" and "South" and in accordance with the optimization of land uses for other activities.

Contract Scope: Construction, Modernization, Operation, Maintenance

Type of Project: Public / Private

Selection Process: Concession Project Proposal

Term: 44 years

Type of Contract: Concession

Payment Source: Project revenues

Asset (s): Modal Transference Center (CETRAM) 30,233 m2
